Funds will be distributed on the basis of the forest production opportunities in each State, considering the acreage of private non-industrial forest lands, the number of eligible owners, the potential productivity of such lands and the need for reforestation, timber stand improvement, other forestry management needs, and the enhancement of other forest resources. The Director, Conservation and Environmental Protection Division, FSA, will allocate funds after consultation with representatives of the U.S. Forest Service and a committee of not less than five State foresters or equivalent State officials selected by a majority of the State foresters or equivalent State officials. The State committee will consult with the State forester when determining the allocation of such funds to the designated counties.

(b) A limitation on the amount of funds which may be obligated under long-term agreements shall be established by the State committee in accordance with guidelines provided by the Deputy Administrator, State and County Operations.

Such practices may be approved for inclusion in a county program after consultation with the program development group, and the recommendation of the county committee, the service forester, the State committee and the State forester.

(b) A forest management plan is required as a condition of cost-sharing.
